Epygi Partners with TigerTMS to Provide an Exceptional Hotel Solution

United Kingdom and Altamonte Springs, Florida, USA, (DATE, 2022) – Epygi Technologies, a worldwide provider of Integrated Communications Solutions, announced that they have successfully completed interoperability testing and started a new partnership with TigerTMS, one of the leading providers of hotel communication management solutions for the hospitality industry.

The partnership between Epygi Technologies and TigerTMS brings elevated solutions to the hospitality market. By using the iCharge Enterprise, Epygi users can provide wide range of hospitality functionalities to their customers. It will allow users to automatically Check In/Out, Line unbar/bar, see Maid Status updates, Minibar postings, DND updates and automated alarm call functionality. TigerTMS's best-selling iCharge Enterprise software is the next generation technology, which transforms the way hotels connect front and back office applications to provide a seamless service to guests, meeting the exact needs of different types of hotel. A modern Dashboard provides an instant view of hotel operations including; room status, occupancy levels, system alerts, and more.

"Epygi looks forward to the added benefits our customers will enjoy through partnering our QX IP PBXs with iCharge Enterprise. Through this partnership we offer high quality, reliable products at value pricing that meet the market's specific needs," said Mario Cuello, CEO of Epygi Technologies.

John Owen, CEO at TigerTMS adds "We are excited by the recent Epygi and iCharge Enterprise integration, and am looking forward to seeing the advantages the hospitality sector will experience as a result of this partnership".
