

— AI-FIRST GUEST ENGAGEMENT

Intelligent guest engagement — where AI meets hospitality

An AI-powered assistant transforming guest communications, streamlining operations and elevating the guest experience — answering every call, in every language, around the clock.

More revenue

Turn missed calls into bookings, with restaurant, spa, late-checkout and third-party upsells on every interaction.

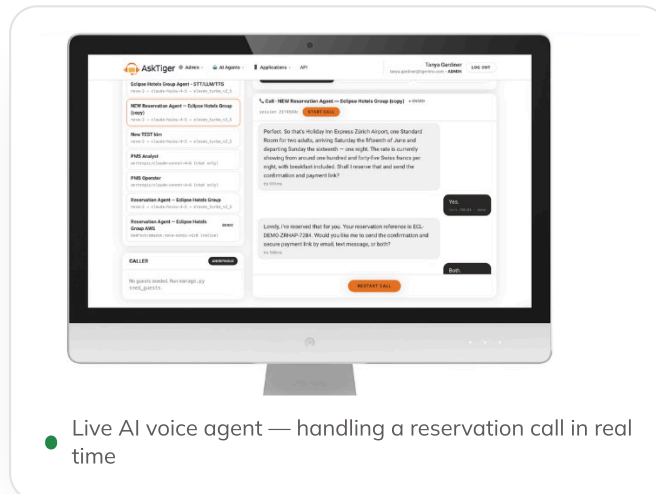

Less staff stress

Relieve teams from repetitive questions and high call volumes, with 100% uptime and no voicemail backlog.

Better operations

Intelligent escalation to live agents, plus reporting on unanswered questions, peak times and guest behaviour.

● Live AI voice agent — handling a reservation call in real time

— WHAT IT DOES

Built to answer every guest, instantly

24/7 AI-driven interaction

Always-on guest engagement, day or night.

Never miss a call

Every call answered, regardless of time zone.

Instant response

Immediate answers to guest queries.

Hotel-system integration

Natively wired into your PMS, PBX and POS.

Multi-language support

Speaks to every guest in their language.

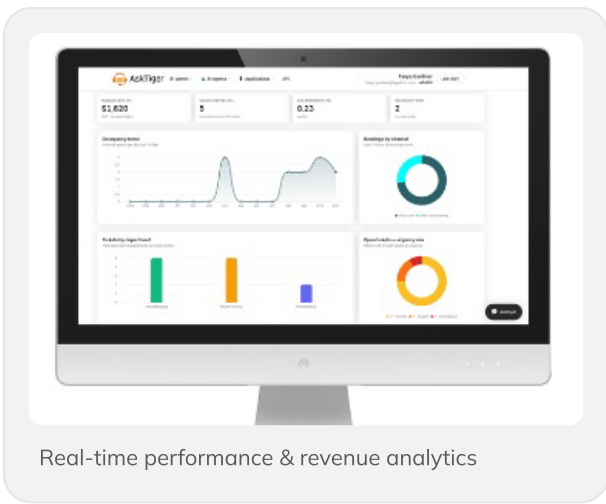

Seamless escalation

Hands off to staff the moment it's needed.

Personalised guest requests — every interaction tailored to the guest and their stay.

— FOR THE PROPERTY

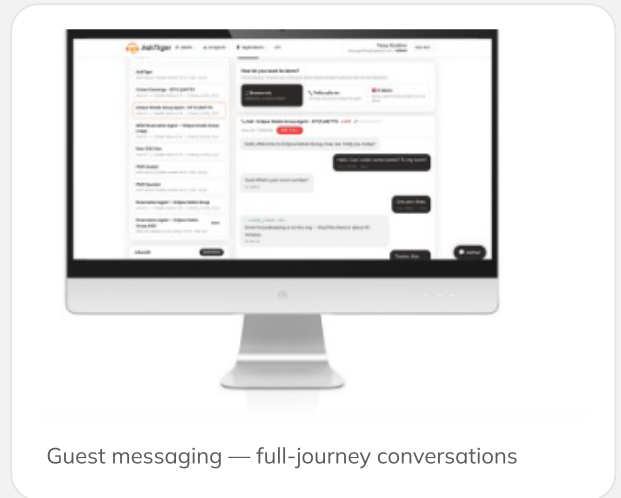

Run leaner. *Earn more.*

- ✓ Reduce staff workload and operational pressure
- ✓ Improve guest satisfaction with faster response times
- ✓ Drive revenue through upselling opportunities
- ✓ Integrate with the hotel systems you already run
- ✓ Gain insights through analytics and reporting

— FOR THE GUEST

Service that *never waits*

- ✓ Instant answers, anytime, anywhere
- ✓ Personalised experience for every stay
- ✓ Faster service without waiting
- ✓ Seamless communication from the hotel

THE BOTTOM LINE

AskTiger delivers a smarter, faster and more personalised hospitality experience by combining *AI innovation* with TigerTMS's proven technology ecosystem.
